Dear Resident:

The Doe Run Company has been asked, under agreement with the Environmental Protection Agency (EPA) and the Missouri Department of Natural Resources, to conduct soil lead sampling of all yards/properties out from the Doe Run Company smelter a distance of 1.5 miles. This work will be conducted in the next approximately 3-4 months by ATC Associates, Inc.

In order to come on to your property and collect samples, we need your permission. Samples will be collected from the front, back, and side yards of your house, and results will be sent to you as quickly as possible. Any future remediation/soil replacement work in these areas will be based on these results. Please provide the following information and return the completed form to ATC Associates, Inc. in the enclosed self-addressed stamped envelope.

Dear Mr. Silver:

I am sorry we cannot sign your access agreement as it reads since we have been treated so poorly throughout this whole process. We will not allow access to the interior of our house due to the damage that has occurred in the past under your supervision. The damage still remains as it has not yet been repaired. We will agree to let you take soil samples from our property if you let us know a week in advance of when you test the property and share your samples with us. We want you to provide us with written results within five days of when you receive them. We also need you to promise to repair any damage to our property that occurs during the soil sampling process. We will give you access to our property for one year in order for you to take soil samples.

Sincerely,

*Christenna McCoy*
